2017 SUMMER STUDY: EQUINE

Available exclusively through Adelante, this program is a unique opportunity for animal science majors, veterinary students or anyone interested in equestrianism. Study in the countryside just outside Edinburgh at the Oatridge Campus of Scotland's Rural College (SRUC), home of the Scottish National Equestrian Centre. 16 spaces are available for this program.

4-Week Summer Program (May 21 – June 17): Take courses in *Equine Anatomy & Physiology* and *Equine Fitness*, while gaining practical experience working with horses. Earn 6 transferable university credits.

Application Fee: \$150 (non-refundable)

Program Fee: \$4,895

2017 SUMMER STUDY: DISCOVER ECOLOGY

In this program, only offered through Adelante, you will study conservation and management theories and practices, with numerous field trips and hands-on experiences exploring a range of habitats and wildlife. Study at the Oatridge Campus of Scotland's Rural College (SRUC), Scotland's largest land-based College, and a national leader in helping to sustain the rural economy of Scotland. 16 spaces are available for this program.

4-Week Summer Program (May 21 – June 17): Take courses in *Habitat Management and Conservation Skills* while exploring first-hand the country's diverse habitats. Earn 6 transferable university credits.

Application Fee: \$150 (non-refundable)

Program Fee: \$4,895

2017 OBSERVATION & RESEARCH ASSIGNMENTS

Gain hands-on experience in your field with a rigorous observation and research placement at a university, policy center or local business in or near Edinburgh.

6-Week Summer Programs (May 21–July 1):

- *Veterinary Science*
- *Psychology*
- *Horticulture*

Application Fee: \$150 (non-refundable)

Program Fee: \$3,895

"Life in Scotland is beyond my expectations; especially since we are residing in an optimal location in Edinburgh that is surrounded by activities and liveliness! About the program itself, the professors are very supportive and cooperative; they try to adjust the work to our interests and level of understanding as much as they can, whilst still promoting learning new software for psychological experimentation." – Melissa Y. (Observation and Research in Scotland, Psychology, 2016)
