EDINBURGH

Live and learn in the Scottish capital of Edinburgh with an **Adelante Research Observation Assignment**. This program is for serious academic students looking to add real research experience to their resume.

- *Hands on research in large-animal surgery setting in a prestigious **veterinary** placement*
- *Historic **horticulture** opportunity in an extensive public garden located in the Scottish Highlands.*
- *Participate in dynamic **psychology** research projects at a major university in Edinburgh.*

Program Includes:

- Pre-departure orientation
- Airport pick-up
- Orientation in Scotland
- Housing (shared downtown apartment or university residence hall)
- Full-time Research Observation Assignment in chosen sector
- 210 contact hours
- Qualified supervisor on site
- Academic credit for contact hours possible through your home university
- International Letter of Recommendation available on request

Fees:

Application Fee: \$150 (*non-refundable*)

Program Fees:

6-week Summer Program: \$4,050

Application Deadline: March 1, 2017

LIMITED SPACES AVAILABLE

Designed for the independent individual, Adelante Abroad programs promote real access to your host-city's culture and daily life. Rather than seeing things as a typical tourist, you will understand what it's really like to live in Scotland while enhancing your resume with professional international experience.

6-Week Summer Program:

May 21 – July 1, 2017

Available Fields:

Veterinary Practice	Royal Zoological Society
Food Certification & Inspections	Ecology & Horticulture
Psychology	Child Development
Equine Clinic	

"Scotland is very beautiful, I love Edinburgh and all of the people here are very friendly so I'm really enjoying that aspect of the program. My favorite part has been being able to get such a first-hand experience of a different culture."

As for my placement, it has been great! Douglas, the vet is really nice along with the rest of the staff at the clinic. I'm getting to observe surgeries most mornings and then I observe consultations in the afternoons."

McKenna, Colorado State, Veterinary Medicine 2015

"Our trip through the highlands, Glencoe, and Loch Ness was a blast! The highlands are so beautiful and being out on Loch Ness was so fun!"

The internship has been stellar! I've had the opportunity to design my own study that runs concurrently with one of the professors here. After collecting data, I'll be able to publish my very own study. As an undergrad, I'm thrilled about this opportunity!"

Jennifer, St. Cloud State University, Psychology 2016
