2019 EQUINE SUMMER STUDY PROGRAM

Available exclusively through Adelante, this program is a unique opportunity for animal science majors, veterinary students or anyone interested in equestrianism. Study in the countryside just outside Edinburgh at the Oatridge Campus of Scotland's Rural College (SRUC), home of the Scottish National Equestrian Centre. 16 spaces are available for this program.

4-Week Summer Program (May 19 – June 15, 2019): Take courses in Equine Anatomy & Physiology and Equine Fitness, while gaining practical experience working with horses. Earn 6 transferable university credits.

"I loved that this program offered opportunities to not only learn new subjects but to also experience a different culture. All of the tutors here were informative, fun, and helpful. I loved being able to ride in addition to our scheduled class time. I also loved the planned outings that our program offered. I thought that the locations they took us to were fun and not something that we would otherwise be able to see very easily on our own. The horses were fabulous and taught me a lot about my riding. The instructors of the lessons were funny and helpful. I loved the riding lessons."

- Lauren P., University of Colorado, Equine 2018

Program Fee: \$5,450 USD

2019 OBSERVATION & RESEARCH ASSIGNMENTS

Gain hands-on experience in your field with a rigorous observation and research placement at a university, policy center or local business in or near Edinburgh.

6-Week Summer Programs (May 19–June 29, 2019):

- Veterinary Science
- Speech and Hearing Sciences
- Royal Zoological Society of Scotland
- Psychology
- Horticulture & Gardening
- Ecology & Conservation
- Agricultural Business

"Living and working in a new environment is definitely a good experience - provided that you are personally ready for it. This program is best suited to individuals who are self-motivated and are independent workers who can work for periods of time without supervision responsibly. I took part in the Psychology program, and found the work to be straightforward and relatively clear. The biggest challenge to future participants will be learning to adjust to a new living environment - be prepared to make mistakes and learn to problem solve for yourself."

- Taylor A. , Augustana College, Observation & Research 2018

Program Fee: \$4,350 USD

More Intern, Study and Volunteer Programs are available in Chile, Costa Rica, Ecuador, Mexico, Spain & Uruguay
