"The best part of the program so far is visiting the farms and doing interviews for my research analysis. I also have time to explore. This week I went to St. Andrews and golfed at the home of golf. Then I went to Ireland for St. Patrick's Cathedral and the Guinness Superstore. Today I'm going to the highlands."

**Keaton B., University of Kentucky, Agriculture Business**

"I could not have asked for a better internship opportunity than the experience I had here in Edinburgh. Our living situation was spectacular-right off the Royal Mile! The actual internship program was absolutely outstanding. We had the opportunity to learn new software, code data, run participants, research new literature, and I even had the opportunity to work with a professor to collaborate on a brand new study."

**Jennifer M., St. Cloud State University, Psychology**
